Any attempt to fully record the history of the high school year at University High School would be impossible, all that the Cub, as the annual publication, can do is to endeavor to catch and portray the highlights of the ever changing panorama in such a way as to recall to each student his own personal connection with the flow of events—an admittedly ambitious undertaking. The 1961 Cub staff believed that it could best fulfill this undertaking by employing the styles used this year—a cross between the conservatism of the usual annual and the flashiness of more modernized publications. The student body is the judge; to the purpose of satisfying it, the Cub staff is dedicated.

ASPECTS OF FREEDOM

Freedom -- what an often used and little understood word! Or is it a word at all? Can freedom be labeled as an ‘it’ and placed in a world of things to be evaluated, judged, selected or rejected because of its material values?

What does freedom include? Can it be limited or subdivided? One man has said there are two freedoms: the false, where a man is free to do what he likes; the true, where a man is free to do what he ought. Can freedom be false and true? Can freedom be good and bad? If it can, does it not transcend the world and become an intangible quality or feeling? Then how can freedom be the household word of the individual and community, password of the nation? What must the strength of such inherent characteristics be? Where does the strength lie?

We of the 1962 CUB staff challenge that freedom is not a word -- but a vocabulary, not a thing -- but a belief, can not include, be numbered, labeled false or true, good or bad -- but that freedom lies in ability to be and accept being. And as long as freedom continues to be not a part of an individual’s life -- but an individual’s life; not the principal upon which our nation was built -- but the nation, we can and will be free.

LEADERSHIP
Opportunities for fellowship and education...

Leadership Convention 1964 has offered outstanding students in journalism and speech the opportunity to learn techniques and make friends. With high school delegates from throughout the state, selected U.S. students studied basic planning, preparation and tricks of the trade for high school newspapers and yearbooks. Speech delegates studied public speaking and drama. Close friends, unusual memories, and education are the yield of Leadership.

PELICAN STATE
are offered to delegates.

The objective of Pelican Girl’s and Boy’s State is to educate young men and women in the duties, privileges, rights, and responsibilities of American citizenship. Delegates were high school juniors, scholarships qualified, who had deep interest in the workings of the government. Activities of city, parish, state, and national government were planned to scale and both elected officers and citizens kept the wheels of the mythical 51st state going.
