This was our first year for a middle school girls' softball team. With the guidance of Coach Roy Hill, the girls worked hard, learned a lot, and had fun. They learned to catch fly balls, field grounders, hit line drives, run the bases, and everything else needed to play a mean game of softball.

As they improved throughout the year, they began winning more and more games until their first season went into the record books as a winning one.

One player said, "I had so much fun playing ball this year. I can't wait to play again next year!"

Playmakers

(Front) Crystal Ramazanizadeh and Brittany Smith
(Back) Faith Peers and Matthew Cemery

Playmakers offered classes throughout the year to kindergarten-eighth grade students. Kindergarten-first graders enjoyed creative storytelling and movement exercises. Second-fifth graders focused on the basic elements of acting: focus, improvisation, and characterization. The sixth-eighth graders learned the basic elements of acting and applied them in monologue and scene work. David Clayton instructed the fall sessions, and Stephen Thomas directed the spring sessions. The Lab School would like to thank Playmakers for many wonderful and creative acting experiences.

Spirit Day

Class competition brings out class spirit! Whether it's the Orange Pass, the Tug-of-War or Volleyball, we hang together.

Games ranged from the Penny Drop to the Orange Pass and of course, the Tug-of-War where the seniors dominated.

Competition was fierce, but the seniors dominated the event and took the gold, giving the other classes something to work for.

The sophomores, with one Spirit Day already under their belt, gave the juniors a run for their money. The seniors grouped together and enjoyed their last Spirit Day, while the freshmen got a taste of the action.

Senior

Ashley Addison, being of first grade mind and very funny kind, will very likely remain a personal bogey for all of those parties next year and much more, no matter how much your senior year. To see Moreno, the ability to find someone else this year you can call "HOT" and to Travis Lujanes, the ability to actually accomplish something in High School.

Klho, bone of childish mind and extremely lazy body, is once more by high Senia Moreno, a new butifulia. Ryan McConnell, a bogey in the nation, a second ball on high, and Ashley Haga's self-esteem almost doubled.

Gerald Assay, being of a wildabout casual (except for the OOGOOGSCHLITTERS) and impresive heath, is really too deceitful to Chris Moody with his bread of meat, and they no longer kept any KIDJILLERS! To Cool Hutcherson the name of the game to W.T.

Nicole Alexander, of perceptive mind and vigorous body, is in America, the strength to be the home in the tile house, Courtney C. a $5000 paid cement to Citizens, Inc., the great happiness and freedom, to P.T. EM, TM the idea that when it is ever raining that was and done on it. You will love her.

Anna Boren, being of Prince William mind and 12 year old body, will to Kady a friend like Marta and peanut butter and honey sandwich.

Catherine Daniel, of burnt mind and live 12 year old body, will to Danielle Vanderpool, the ability to be cooler than you to John Pierce, and her own role to my French class, bond care, future, companion to Miller, seven more years of endeavor, perseverance, and fun to the rest of you, may you find the strength and courage to when you pass.

Benn Ariz, of romantic mind and heartbreaking body, will to Annmarie Canas an active role in everything and to Mrs. Mary Jackson the right to provoke opinions. You've earned the title. Mrs. Jackson, use it well.

Kendra E. Peterson, being of playful mind and tired body, will be fairly likely a wonderful senior year, Manni Trollop as an incredibly essential life. Robert Freeman a par of screechers, and to Kelly Blackman the ability to keep smiling, I know you.

Derek Vanderpool, being of indecent mind and preening body, will definitely be valuable in America. We're the key and the basis, and this good natured, Celeste (because an old friend) my grades, and in America will not really retain a car. Rent.Tom Bow, Bow was Tom Bob, Robert Howard Goodrich another nickname as well as the Quiz Bowl team with Max, Don to a better Tournament Town. Dr. Fabre an ancient alyt, and the Junior class as an aid with bright red arrow pointing to England.

Editors’ Page

Editors Sally Richardson and Brian Letage

After 187 pages of photos, badges, and captions, you’ve finally reached the end—'THE EDITORS’ PAGE!!!

We would like to start by thanking some special people: Meredith Gillot and Margaret Readie for their hard work on copy; Caroline Pittman for her photography (and liquid paper); Dora Kelle for the artwork on the cover, the teachers who gave us pictures and labeled them, and the entire journalism class for their assistance.

We would also like to thank the VERY special people (other than ourselves, of course) - Mrs. Carol Young and Mrs. Mary McGeehee. Without their help, guidance, and COFFEE, this yearbook would be nonexistent.

Thank you to EVERYONE who contributed to this volume of The Cub. It’s been a great year. We hope you enjoy the memories we’ve captured.
