Congratulations to the Class of 2001 on a fantastic school year and to this year’s Cub staff and their advisors, Mrs. Young and Mrs. McGehee, for all they have done to make this year’s Cub one of the best ever. I know you will enjoy revisiting the 2000-2001 school year in the pages ahead.

As you look through this yearbook, searching for pictures of yourself and your friends, I hope you will also take a couple of minutes to think about all of the people—the teachers, the counselors, the principals, coaches, custodians, food service workers, parent volunteers and so many others—who work so hard every day to make this school such a special place to teach and to learn. Those of you who have never attended school elsewhere have no idea how fortunate you are to be part of this very special school.

If you are a member of the Class of 2001 and leaving us this year, it’s my hope that the memories this book holds for you will warm you with happiness in the years ahead. I will especially miss all those seniors who have been bumping up and down the stairway in our house these past several years.

Time passes so quickly. Hold tightly to the memories of your years at the Lab School for they will mean much more to you tomorrow than you can possibly believe today. And please stay involved with your school as it moves, like you, boldly into the future.

Sincerely,

Edward E. Greene, Ph.D.
Director

The 2000-2001 school year has been a very successful one for the elementary division of the Laboratory School. The faculty has been involved in several curriculum reform initiatives, including Understanding By Design and the International Baccalaureate Primary Years Programme. We will begin implementing that program at the beginning of next school year.

Several faculty members have distinguished themselves with state and national recognition. Mrs. Emily Young received the Presidential Award of Excellence for Science Teaching at both the state and national levels. Mrs. Avril Pente joined the National Board Certification and also conducted teacher trainings for the Department of Defense in Korea and Japan. Mrs. Betty Fowler won the College of Education Teaching Excellence Award, and Mrs. Joanna Fauber was named the Outstanding P.E. Teacher of the Year for the state of Louisiana. Mrs. Donna Lamore completed her first year of training as a Reading Recovery Teacher.

Our guidance program successfully implemented a "New Cubs" Program which paired all new elementary students with older students in their grade. Many of the buddies toured the school and met in activities prior to the opening of school. They met with the counselor each week until graduation, when they became "Old Cubs." Character education activities were conducted in guidance lessons each week.

Each grade has special memories from the year, but some events were truly special. The physical education department sponsored several educational and character-building events, including the Safety and Emergency Preparedness Day, Jump Rope for Heart, and Hoops for Heart. All elementary school grades completed at least ten hours of community service. The third, fourth, and fifth graders enjoyed spending the day with Erik Cork, a national writing consultant. He made Rappin' and Writing fun. Rollerblading and fishing were the highlights of the second grade year.

The faculty and staff of the elementary division would like to thank all our parents for their support and cooperation this year. We are fortunate to have the opportunity to work with such an outstanding group of parents, grandparents, and students.

Sincerely,

Dorothy Bumfellow

I wish to extend my congratulations to the Class of 2001. As usual, the Cub staff with support from two wise advisors, Mrs. Young and Mrs. McGhee, has done an outstanding job highlighting the events of a very good school year. No doubt it will be great fun reliving the memories of 2000-2001 school year in the Cub.

The Class of 2001 is a very special class for me because we started high school at the Lab School together. I have enjoyed watching you grow from nervous ninth graders into confident seniors preparing for your next journey after high school. I have enjoyed the ride with you. I will miss you. Please remember us and do stop by to say hello whenever possible.

Those of you who remain, I look forward to another fine year with you at the Lab School. We have a great school with an outstanding faculty, support staff, and a very supportive and committed school community.

Sincerely,

I can’t believe it! All 188 pages are finished. Of course I cannot take all the credit for it. There are many hours of hard work and hundreds of pictures that go into the making of The Oak. Thank you to the journalism class for their hard work. I know it hasn’t always been fun, but the hard work is truly appreciated. You have made an incredible yearbook staff. Without your work, the yearbook would never have been completed. Also, thanks to all who have contributed pictures. We would not have a yearbook without your contributions. A special thank you to Kris who spent many hours working on the artwork for the division pages. I also must thank our dedicated Tuesday afternoon yearbook staff of Lindi, Heather, Lin, Nancy, and Jennifer who have helped pull everything together. Mrs. McGhee and Mrs. Young, we would not be able to have a yearbook without you. Your guidance and proofing skills have been so helpful throughout the year. Also, who else would keep me on track? I have really enjoyed working on the yearbook this year and I wish Lindi best for next year, as well as the ability to keep Mrs. Young and Mrs. McGhee from bludgeoning any pictures!
