When Marjorie Gianelloni Thompson (ULS '41; LSU College of Science '45) took in the ULS Centennial Commemorative painting by Jack Jaubert, she experienced a rush of “many happy memories” from her time as a student at the school.

“I made wonderful friends. One has been a lifelong friend to this day,” Thompson shared, adding, “I remember walking home from school for lunch and playing baseball. My favorite classes were always the science classes. My favorite teacher was Dr. Lee Moncrief Harrison, the chemistry teacher.”

Perhaps it’s those experiences that led Thompson to believe in investing in education. She is a leadership donor to ULS, leveraging the ExxonMobil matching gift program to maximize her support of the Annual Appeal “Forward you send us – Forward We Go!” In addition, Thompson gives to the LSU Alumni Association and the College of Science.

“Philanthropy is important to me because I believe in giving back. I want to set an example for my family to always give back,” Thompson said. “I hope that my gift helps in giving children a good education.”

“You truly sense the high degree of affection Mrs. Thompson has for U-High when speaking with her,” said Director of Development Mila Sexton. “Time passes too quickly when we meet. A 30-minute meeting often turns into an hour and a half as she reminisces about her days spent at U-High. I learn something special about U-High’s rich history each visit. Mrs. Thompson is extremely philanthropic and enjoys hearing how her gifts have made a huge impact on her alma mater.”

After earning a bachelor’s degree in zoology at LSU, Thompson worked for ExxonMobil. She and her husband, the late Russell A.

The Cub Club spent last summer organizing and preparing for the new school year. Little did they know how much this planning and preparation would pay off.

The year kicked off with significant challenges, including the worst natural disaster to strike the United States since Hurricane Sandy just five years ago – the Great Flood. It brought with it the first of many tests for the newly re-organized Cub Club. The Cub Club Care Team and various volunteer members set forth to do literally whatever was needed. Cub families, both parent and faculty, were in need of the most basic items including toiletries, school uniforms, clothing, groceries and even housing needs. The Cub Club sprang into action and exceeded everyone’s expectations. They had passed their biggest test of the year.

“The strength and resilience of this organization has certainly modeled the school’s motto, ‘Total Effort in Every Endeavor.’ They are imaginative, reliable, selfless and passionate team players with no ‘off switch.’ It is my privilege to serve them and congratulate them on an extraordinarily successful year,” said Mila Sexton, director of development.

During this unexpected event, the club did not waver from fulfilling its already planned programming. With more than 300 volunteers that support a variety of programs, they hosted over five events including the Faculty and Staff Retirement Party, Milestone Meet and Greet, Teacher Appreciation Week, several restaurant nights and the Used Uniform Sales Day. They also organized the Care Team, Room
The end of the school year is an exciting time as educators, parents and siblings celebrate the accomplishments and milestones of their graduating and/or rising grade level student. It is not only a time to recognize student achievements but also a time to reflect on our faculty and staff’s triumphs throughout the year. Additionally, topics of advancement opportunities arise and strategic plans are set in motion for the upcoming school year.

Last spring, our administration provided the ULS community an email encompassing areas of concentration for focal advancement in the 2016-2017 school year. These areas included instructional curriculum, local, state and national recognition organizations and collaborations between our school and the LSU College of Human Sciences and Education and other schools within the area. I am pleased to say the efforts were met and exceeded by the dedication of all members of our school community.

In the elementary division, the addition of an upper-elementary math curriculum coordinator and coach were added to our team and our faculty continued to work throughout the year to improve all content CRLG’s and related assessments. The development of STEM experiences in the upper-elementary perpetuated student’s fervor for extension and enrichment opportunities in science, technology, engineering and mathematic disciplines.

LSU resources were utilized as our fine arts, foreign language and physical education units were also expanded. ULS hosted student teaching, field experience partnership between the elementary school and CHSE, collaboration between the Fine Arts college and Lab School art teachers and the development of the CUBS program (collaboration between elementary PE and LSU Athletics).

For the first-time in school history, eligible elementary students were nominated for Duke Talent Search; student of the year nominees (5th grade) participated in our first ever student of the year recognition and next year, National Elementary Honor Society will be introduced.

Also, our students participated and placed in the following academic competitions: The Noetic Math competition, National Spelling Bee, Young Author’s Literacy and Writing competition, and Fifth Grade Expo projects – some of the 5th grade expo projects will be selected by the 5th grade team and the 6th grade science instructor to compete in the science fair in the fall of 2017.

Our secondary school graduated eight National Merit Scholarship winners and of the total number of scholarships reported, more than $10 million dollars was awarded to our seniors. The junior and senior class averaged 13+ hours of college credit each year.

Future plans for the secondary division include becoming one of the first in the state to pursue the STEM accreditation at the high school level through AdvancED. Students will also be able to earn an associate degree in liberal arts and science by combining AP/IB/DE opportunities. We will continue to offer both our junior and senior classes the opportunity to take up to two College Level Examination Program (CLEP) tests and two new AP computer programming courses and sports management electives have been added to the high school course of studies. Club offerings will continue to grow to include the Math Counts Club, Rubik’s Cube Club, Computer Programming Club and the Middle School STEM Club.

In addition, the international exchange programs not only continued with our eighth grade Panama exchange, but also high school students participated with a school in Chile, and seventh grade students partnered with a school in Brasov, Romania. Students will travel this summer to Australia, Romania, Italy, New Zealand and London. Future plans include an exchange with Chinese and French countries. All of the continued international exchange efforts will continue to inspire, educate and develop a broader understanding of diversity for which our school was founded.

Over the summer, middle school students will participate in the National Flight Academy STEM program in Pensacola fostering critical thinking, problem-solving, teamwork and communication skills.

In closing, while the 2016-17 school year was productive and exciting, 2017-2018 is on schedule to becoming an even more rewarding experience for all of our Cub family.

Dr. Wade Smith
FIVE ULS FACULTY AND STAFF MEMBERS RETIRE

Five ULS faculty and staff members who retired at the end of this year were honored at a reception hosted by Cub Club. Congratulations to history instructor Keith Altazin, business manager Natalie Long, cafeteria manager Joanna Krumholt, English instructor Kathleen Richard and elementary associate Brenda Wilmot!

“Years of dedication to their profession, leadership to their peers and students, selfless service to our community and unconditional friendship have been characteristics displayed by each and every one of those retiring this year, and they will continue to be inspirations to many for years to come. Each has my gratitude and admiration for a job well done, and your service time spent at ULS will forever make you a part of the Cub family,” stated Wade Smith, superintendent.

Mrs. Long has worked at ULS for 22 years. Mrs. Wilmot has taught at ULS for 20 years, while Mrs. Richard and Mr. Altazin have been members of the faculty for 19 years and 14 years respectively. Mrs. Krumholt tops the list for years of service having been a part of the Cub Community for 29 years.

During the event, speakers shared stories and memorable moments of working with each retiree. Megan Collins wrote a poem for Mrs. Long. Candy Robillard shared how much she has appreciated Mrs. Richard’s friendship through the years and noted her love for her students. Retired ULS instructor Cynthia Edmonston told the attendees that above all, Mr. Altazin is a good and kind teacher. Paige Zittrauer told the group how she would miss Mrs. Wilmot’s smile, endless energy, and the life lessons she teaches her young students each day. Adele Dufrene noted that Mrs. Krumholt is one of the few who on a daily basis is able to touch the lives of nearly every ULS student, faculty and staff member and that after nearly three decades of service, her good food will be missed.

Each honoree received a gift and all in attendance enjoyed refreshments.

Cub Club committee members who coordinated the event were Mary Elizabeth Hart, Kirsten Clebert, Kate Blumberg and Kim Dupont. ULS Superintendent Wade Smith and College of Human Science and Education Dean Damon Andrew also both spoke at the event.

GIVING BACK TO MOVE FORWARD

(continued from front cover)

Thompson, Jr., have three sons. Her grandsons Donovan Thompson and Daniel Thompson are U-High alumni, graduating in 1989 and 1994 respectively, and two of her great-grandsons are here now. Daniel Thompson is in first grade, and Douglas Thompson is in third.

U-HIGH ALUMA LAURIE LIPSEY ARONSON ’85 HONORED

Every spring, the LSU College of Human Science and Education recognizes and celebrates honorees for the significant contributions they have made throughout LSU and the extended community. Recipients exemplify the mission of the college which is to address complex human issues and policy decisions facing Louisiana, the nation and the world through their gifts, talents and time.

The ULS Foundation Board of Directors was delighted to nominate one of its own for this prestigious award, the CHSE Alumna of Distinction. Laurie Lipsey Aronson ’85 is the president and CEO of Lipsey’s, LLC, a wholesale distributor of sporting goods, in Baton Rouge, Louisiana. Aronson is also president, CEO and owner of Haspel LLC, a family-owned manufacturer and distributor of a men’s tailored clothing and sportswear brand with sites in Baton Rouge and New York City.

Aronson has served on the ULS Foundation Executive Committee as secretary, vice chair and board chair during U-High’s Centennial Celebration. She has served as a board member since 2011. Aronson has also been a board member of Crime Stoppers of Baton Rouge since 2004 and has served as president since 2010.

(Left to right): Dr. Damon Andrew, LSU CHSE dean, Laurie Lipsey Aronson ’85 and Dr. Wade Smith, University Laboratory School superintendent

(Left to right): Keith Altazin, Natalie Long, Joanna Krumholt, Kathleen Richard and Brenda Wilmot
### SCHOLARSHIPS AND HONORS

We are pleased to announce the 2017 Scholarships and Honors (information provided by students as of May 31, 2017). TOPS scholarships are not listed as the information has not been released. Our Honor Graduates have a GPA of 3.9 or better.

#### Our Highest Honor Graduates Are:

- **Elizabeth Feltner**
  - co-Valedictorian
  - Louisiana State University Louisiana Tiger Legacy Scholarship
  - Exchange Club of Baton Rouge Janet M. Marquette Youth of the Year Award

- **Henry Kantrow**
  - co-Valedictorian
  - Boston College President's Scholarship

- **Paul Stouffer**
  - Salutatorian
  - University of California, Los Angeles President's Scholarship
  - University of California, Los Angeles Honors Resident Award

#### Gentry Christine Hurst (Louisiana State University)
- The Governor's School for the Agricultural Sciences
- Millikaps College Presidential Scholarship
- Northwestern State University NSU Opportunity Scholarship
- Northwestern State University Outstanding Student Award
- Northwestern State University Presidents Honor School Award
- Louisiana State University LSU Out of State Achievement Scholarship
- Spring Hill College Foster Leader Award
- Kizer University Academic Scholarship

#### Anna Adelaide Johannessen (Louisiana State University)
- Louisiana State University LSU Tiger Legacy Scholarship Excellence Award
- Louisiana State University LSU Tiger Excellence Scholarship
- Samford University Academic Scholarship
- University of Alabama Leadership Scholarship
- University of Alabama at Birmingham Bizzar Gold Scholarship

#### Matthew Graham Johnson (Louisiana State University)
- Louisiana State University Distinguished Freeman Scholarship
- Louisiana State University Flagship Scholars Award
- Louisiana State University Future Leaders Scholarship
- Louisiana State University LSU Tiger Legacy Scholarship Excellence Award

#### Parker Nelson Johnson (Tulane University)
- Louisiana State University LSU Tiger Excellence Award Scholarship
- University of New Orleans President's Scholarship Award
- University of New Orleans NCAA Golf Scholarship

#### Payton Ann Johnson (University of Louisiana at Lafayette)
- The Jefferson Scholarship Foundation Scholarship
- Marymount Manhattan College Theatre Dance Scholarship
- Marymount Manhattan College Dean's Academic Merit Scholarship
- Pace University Trustee Recognition Award
- Louisiana State University LSU Tiger Legacy Scholarship Excellence Award
- Louisiana State University LSU Tiger Excellence Scholarships Award
- Colorado School of Mines President's Undergraduate Scholarship

#### Sean Michael Ritschard Kennedy (University of Alabama)
- National Merit Cenet Watch Scholarship
- Louisiana State University Alumni Global Leaders
- Louisiana State University Flagship Scholars Resident Award
- Louisiana State University President Future Leaders in Research Program
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award
- Purdue University Presidential Scholarship Excellence Award
- University of Texas at Dallas National Merit Finalist Scholarship
- University of Texas at Dallas Associate Professorship

#### Cameron James Little (Marymount Manhattan College)
- National Merit Scholarship
- Louisiana State University LSU Tiger Legacy Excellence Scholarship
- University of New Orleans NCAA Scholarship Golf
- Louisiana State University LSU Tiger Excellence Award Scholarship
- University of New Orleans NCAA Scholarship Golf

#### William Scott McKenzie (University of Alabama at Birmingham)
- National Merit Scholarship Foundation National Merit Scholar Finalist
- University of New Orleans National Merit Scholarship Finalist
- University of New Orleans National Merit Scholarship Finalist
- University of New Orleans National Merit Scholarship Finalist
- University of New Orleans National Merit Scholarship

#### Grace Susannah Gilpin (Louisiana State University)
- University of Louisiana at Lafayette Academic Scholarship
- University of Louisiana at Lafayette Academic Scholarship
- University of Louisiana at Lafayette Academic Scholarship
- University of Louisiana at Lafayette Academic Scholarship

#### Driskell Robert Greene (Louisiana State University)
- University of New Orleans President's Scholarship Award
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award
- University of New Orleans President's Scholarship Award
- University of New Orleans President's Scholarship Award
- University of New Orleans President's Scholarship Award

#### Isaac Stanley Guirard (Louisiana State University)
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award
- Louisiana State University LSU Tiger Legacy Excellence Scholarship Excellence Award

#### Mary Holland Nader (Louisiana State University)
- University of California, Los Angeles President's Scholarship
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award

#### Megan Navarro (Louisiana State University)
- University of California, Los Angeles President's Scholarship
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award
- University of California, Los Angeles Honors Resident Award
ENDOWED AND NON-ENDOWED SCHOLARSHIPS

To support or learn more about the University Laboratory School Foundation’s Scholarships and those for whom they are named, please visit http://www.ulsfoundation-lsu.org/EndowedandNon-EndowedScholarships

Carolyn Kent Rovee-Collier ’59 Memorial Scholarship

Carolyn Kent Rovee-Collier graduated from the Lab School in 1959 and went on to an eminent career as a researcher in the field of infant memory. With this scholarship, Carolyn’s family thanks the school where she had her earliest educational experiences, and honors her legacy as a pioneering female scientist. This year’s recipient is Kaila Anderson.

Past Recipients:
2015-16: Jazmine Ross
2014-15: Mihayla Bates

Kaila Anderson

Cristin Gill Vigueiric ‘91 Memorial Scholarship

The Cristin Gill Vigueiric ‘91 Memorial Scholarship was established by family and friends. Cristin began her education at the University Laboratory School in first grade. She was part of four generations of the Gill family to receive diplomas from U-High. Her three sons, Hayden, Dylan, and Jack attend the University Laboratory School. This year’s recipient is Melinda Gray.

Past Recipients:
2015-16: Morgan Brown
2014-15: Karyn Moore
2013-14: Hall West

Melinda Gray

Sicates Family Award Honoring Robert “Bob” E. Sicates, Jr.

Family and friends established this award to honor Bob Sicates, who truly loved athletics at the Laboratory School. Bob volunteered at many athletic events at the ticket gate. He attended the athletic games of several athletes from U-High even after their graduation and continued to follow past and current students through media outlets. This year's recipients are Naya Marshel and William Scot McKenzie.

Past Recipients:
2015-16: Myron Rutland & Destiny Ephram
2013-14: Madison Foust & John Lewis
2012-13: March Bovoumom & Frank Leonard III
2011-12: Kyle Crifasi & Kathryn Sands

Naya Marshall
William Scot McKenzie

Jordan Irene Donnelly ‘08 Scholarship

This scholarship was established in Jordan’s memory in 2009 by family, friends and classmates of the Class of 2008. Jordan had a giving heart, was a great student, and a friend to everyone. This year’s recipient is Isabella Jane Reed.

Past Recipients:
2015-16: Michael Kirschner
2014-15: Mathile McCowan
2013-14: Matthew Cicciarelli
2012-13: Kassidy Voinche

Isabella Jane Reed

Christian Price Baer ’00 Memorial Scholarship Award

Christian Price Baer, a 2000 graduate, was a thirteen year senior, member of the UHS choir and was very active in the community. The Christian Price Baer Memorial Scholarship Award was established as a standing memory of Christian and all that he represented. This year’s recipient is Gary Wahliborg.

Past Recipients:
2015-16: Stewart Craig
2014-15: Sophie Guiraud
2013-14: Chantilly Courson
2012-13: Alexander Hudshy

Gary Wahliborg

The Cub Roar
Yancy W. White ‘80 and Diane Rene’ Upp Simino ’79

Memorial Scholarship

In 1981, the Yancy W. White Memorial Scholarship was established in memory of the 1980 graduate. Yancy played football, served on Student Council and was a member of the National Honor Society among many other activities during his time at U-High. The Diane Rene’ Upp Simino Memorial Scholarship was established in memory of the 1979 graduate. Diane was a cheerleader, member of HSY, Choir, Art and Key Clubs, and National Honor Society. She was chosen as Queen of the Winter Formal as well as serving as Football Sponsor and Basketball Manager. These scholarships are presented to Jessica Nolan and John Carleton.

Past Recipients:
2010-11 Samantha Laramore & Gerald Knapp
2011-12 Anna Leinweber & Chisa Egbelu
2012-13 Brannon Schwab
2013-14 Hannah Chen & Cody Kelley
2014-15 Elle Keegan

Superintendent Award

The Superintendent Award is given to those students who exemplify the school motto: “Total Effort in Every Endeavor.” This award was established to recognize members of the senior class who have demonstrated a strong commitment to academics and are recognized by the faculty and their peers as a positive example of the U-High tradition. The scholarships have been awarded to Molly Patrick and Nicky Abraham.

Past Recipients:
2015-16 Abigail Caffey, Mary McClain & Jacob Wharton
2013-14 Olivia Thomas & Brandt Browssand
2012-13 Kristie Brand & Joshua Jefferson
2011-12 Matthew Dantin & Lauren Stanley
2010-11 Olivia McClure & Connor Miller
2009-10 William Major & Madeline Masstri
2008-09 Matthew Copesky & Thomas Tippet

Brad Bella Memorial Achievement Award

Brad Bella, a great love for family, the outdoors and baseball. Brad is forever remembered for his beautiful heart, radiant smile, and contagious joy. To further his memory and in support of future students, a memorial scholarship was established in Brad’s name by his family and friends. The recipients of this year’s Brad Bella Memorial Scholarship are Luke Peever and Brad Smothers.

Past Recipients:
2015-16 Seth Daugherty & Peyton Heyward
2014-15 Hudson Eglin
2013-14 James Kern
2012-13 William Lockwood
2011-12 Alexander Prejean
2010-11 Paul Gravitis
2009-10 Matt Burland

Tony Fertitta ’98 Memorial Scholarship

Tony Fertitta, was a 13-year senior, member of the Art Club, captain of the football team and a member of the class of 1998. Tony is remembered for the joy which he brought to every day. The recipient of the Tony Fertitta Scholarship for this year is Maggie Westbrook.

Past Recipients:
2015-16 Landon Laramore
2014-15 Sydney Saha
2013-14 Madeleine Richard
2012-13 Brannon Schwab
2011-12 Madeline Blackwood
2010-11 Hayden Darby
2009-10 Kendall McLean
2008-09 Jeremy Krumholt
2007-08 Morgan Etienne

Leonard L. Kilgore, Jr. Memorial Scholarship

The Leonard L. Kilgore, Jr. Memorial Scholarship fund was established by the family, friends, and professional associates of Dr. Kilgore who was the principal of the Laboratory School from 1965 to 1974. This year’s recipient is Matthew Johnson.

Past Recipients:
2015-16 Marshall Graves
2014-15 Elle Keegan
2013-14 Amber Iran
2012-13 Jacqueline Samson
2011-12 Mary Walle
2010-11 Molly Ann Walle
2009-10 Carly Wahlborg
2008-09 Kristian Stanley
2007-08 Craig Chandler
2006-07 Cristiana Boureté

Past Recipients:
2015-16 Sydney Saha
2014-15 Madeleine Richard
2013-14 Bella Bella
2012-13 Brannon Schwab
2011-12 Madeline Blackwood
2010-11 Hayden Darby
2009-10 Kendall McLean
2008-09 Jeremy Krumholt
2007-08 Morgan Etienne

PRE-PAST RECIPIENTS:
2015-16 Tony Fertitta Scholarship
2014-15 Tony Fertitta Scholarship
2013-14 Tony Fertitta Scholarship
2012-13 Tony Fertitta Scholarship
2011-12 Tony Fertitta Scholarship
2010-11 Tony Fertitta Scholarship
2009-10 Tony Fertitta Scholarship
2008-09 Tony Fertitta Scholarship
2007-08 Tony Fertitta Scholarship
2006-07 Tony Fertitta Scholarship
2005-06 Tony Fertitta Scholarship
CONGRATULATIONS TO THE FOLLOWING UHS SENIORS WHO WERE NAMED ALL-ACADEMIC ATHLETES FOR THE 2016-2017 SCHOOL YEAR

To earn all-academic ranking, these students had to maintain a 3.5 GPA and participate in a sport for at least two years. Go Cubs!

UHS senior parents who are alumni gathered with their graduating senior for a Legacy Dinner at Superior Grill on May 16.

The dinner is a new tradition that started with the Centennial Class of 2015 and has been a great way to celebrate the two generations who will soon share something special in common. This event is fully organized and sponsored by the legacy parents.

Cindy Tyler Rice ’84 and Ann Cunningham McDuff ’79 helped to organize this year’s dinner.
The graduating class of 2017 walked through the halls of U-High for the last time as students on Friday, May 12, 2017. Grades K-11, faculty, staff, and senior parents cheered and congratulated the seniors as they exited the school.

After the walk-out, the seniors gathered on the front lawn of the school where the Foundation hosted a crawfish boil in their honor. Crawfish were catered by Mitch Hopkins, Class of 2008, and his business Crawfish on the Geaux. The seniors were also treated to snowballs from Ninja Snowballs. Congratulations Class of 2017!

1st place - Connor McCarthy - Santiago
2nd place - Leighton DeLaune - Here is a Concert
3rd place - Annie Furr - Here is Middleton

Capital Area Reading Council Newspaper in Education Writing Contest Regional and State Winners

KINDERGARTEN
1st place - Ethan Jarreau

FIRST GRADE
1st place - Summer Slaton

SECOND GRADE
1st place - Ryland Stafford

ULLS elementary faculty and staff hosted an awards program for students who placed in the Young Author's Writing Competition, in the Noetic math competition, in the Louisiana Art Education Association's flag competition and who participated in the Knitwows Math Olympiad. Names of those recognized follow in each category and photos from the awards ceremony are below. Congratulations to all of these scholars!

Placing 1st, 2nd and 3rd in the Young Author's Writing Competition at the school level are:

KINDERGARTEN
1st place - Caitlyn Saputra and Rebecca Blythe Wood
2nd place - Adelynn Roy
3rd place - Ethan Jarreau

KINDERGARTEN – NON-FICTION
1st place - Egan Gardner
2nd place - Colin Carruthers
3rd place - Manny Higgins

KINDERGARTEN – FICTION
1st place - Carter Lowery
2nd place - Colin Carruthers
3rd place - Manny Higgins

FIRST GRADE – POETRY
1st place - Theresa Singletary
2nd place - Summer Slaton
3rd place - Manny Higgins

FIRST GRADE – NON-FICTION
1st place - Mason Ruebom
2nd place - Hanson Saurage
3rd place - Laney Plaisance

FIRST GRADE – FICTION
1st place - Reese Ledoux
2nd place - Graham Morgan
3rd place - Beckett Wilson

SECOND GRADE – POETRY
1st place - Mary Cate Heroman
2nd place - Gracie Rutledge
3rd place - Christian LeSage

SECOND GRADE – NON-FICTION
1st place - Sofie Guruli
2nd place - Grace Guidroz
3rd place - Josiah Wood

SECOND GRADE – FICTION
1st place - Piper Cangelosi
2nd place - Vivienne LeBlanc
3rd place - Ava Ginn

THIRD GRADE – POETRY
1st place - Kennedy Roth
2nd place - Olivia Metzger
3rd place - Amelia Kutter

THIRD GRADE – NON-FICTION
1st place - Lukas Schwem
2nd place - Brayan Poirrier
3rd place - Lane Mixon

THIRD GRADE – FICTION
1st place - Amelia Kutter
2nd place - Amelia Kutter
3rd place - Bradford Word

FOURTH GRADE – NON-FICTION
1st place - Evelyn Truhan
2nd place - Jahe McCann

FOURTH GRADE – FICTION
1st place - Joseph Gray
2nd place - Tannah Teague
3rd place - Sadie Everett

FIFTH GRADE – NON-FICTION
1st place - Adele Aldridge
2nd place - Grace Rutledge

FIFTH GRADE – FICTION
1st place - Madison Rumfellow
2nd place - Julia LeBlanc
3rd place - Lucy Nguyen

FIFTH GRADE – POETRY
1st place - Mia Richard
2nd place - Eliza Rowley
3rd place - Claire Murphy

Placing in the top 10 percent of all participants nationwide for the Fall 2016 Noetic Math Competition are:

SECOND GRADE
Owen Blumberg
Joshih Wood
Vivienne LeBlanc
Shepherd Gammon
Matthew Sills

THIRD GRADE
Sofia Zhu
Jude Broussard

FIFTH GRADE
Will Robinson – Team Winner

Placing in the top 50 percent of all participants nationwide for the Fall 2016 Noetic Math Competition are:

SECOND GRADE
Ansley Bozard
Ty Bennett
Piper Cangelosi
Ava Ginn
Mary Cate Heroman
Lily Leادرman
Charlotte Slaton
Luke Stewart
Ryan Smith
Julian Duhon

- Will Robison
- William Spencer
The annual service project sponsored by the University Laboratory Elementary School, the American Heart Association’s Jump Rope and Hoops for Heart, was a record breaker this year! Elementary Physical Education teachers began this year’s fundraising campaign by explaining the purpose and mission of the American Heart Association to the students, stressing the importance of making healthy lifestyle choices.

“We believe it is important for children to understand very early that each of them has the power to make his or her own healthy lifestyle choices, which provide the best opportunities to be ‘heart healthy’. Empowering children in this way allows them to develop healthy lifestyle habits, which have a significant impact on their long-term physical activity and dietary choices. When children begin sharing this information with their families, there is strong potential for family life styles to be impacted as well,” said Myra Broussard, elementary principal.

“None of us have had experience with this caliber of Jump Rope for Heart, Hoops for Heart and The Great RePlay, because we are the first school in Louisiana to break the $60,000 mark. The focus we tried to teach was that we are helping others with special hearts. Wow! We never imagined that the kids would get so fired up and be so motivated from start to finish. From the Kick-Off Celebration in the auditorium to the first Zoo Crew and lanyard being handed out, the students cheered loudly for this event and for each other. This was incredible!” said Susan Gremillion, elementary physical education instructor.

First grader Reese Ledoux said it best with a huge smile on her face, “Coach G, I get it! It’s not about the thank you gifts from the American Heart Association, it’s about helping others with sick hearts.”

While kindergarten was learning about occupations, Mrs. Zittrauer told her class, “Tell what you want to be when you grow up and support your opinion with at least one reason why.” Avery James Nadeau drew this beautiful picture and wrote this amazing supportive statement.

Elementary students answered the call! The number of participants in kindergarten through fifth grade increased from 2016 by 120 for a record number 339. The total raised also increased by more than $16,000, bringing this year’s total to $61,550.53. This amount placed ULS first in Louisiana for funds raised and third in the U.S.

The ULS Foundation is proud to highlight the tremendous philanthropic spirit exhibited by all ULS students who participated in this fundraiser. Great job Cubs!
During the 2016-2017 school year, a committee of upper elementary teachers convened throughout the fall semester to create a vision and plan for the implementation of a STEM program. The steering committee studied the basis of STEM instruction, the engineering design process, and began to design STEM-related classroom experiences for third, fourth, and fifth grade students. The steering committee took an in-depth look at STEM standards and indicators and evaluated where existing STEM experiences could be further improved. Finally, the team created a timeline of major units from each upper elementary grade level and used this as a guide to outline specific STEM lessons and experiences using a cross-curricular, multi-dimensional approach.

Drawing upon their collective expertise in different content and grade level areas, STEM steering committee members included elementary instructors Trisha Fos, Jill Ayres, Dawn Skiles, Dianne Moran, Danielle Blackwood, Tracey Graham, Loren McIntyre, Rebecca Svensson and Megan Jenny. Following their meetings, committee members shared newly gained knowledge with their grade level teams, making this a rich cross-curricular experience for all involved.

Elementary student, Veda Devireddy shared, “STEM impacted our learning because it helped reinforce what we were learning in class,” and Tyler White explained, “It impacted our learning by helping us work well with others. If there was ever a problem, we had to solve the problem. Most of the time we had a different opinion about what we should do. This helped us to learn how to work well and get along with people better. It also helped us solve problems when things went wrong.”

The outlook of STEM education at ULS is bright, carrying on the theme of this year’s Annual Appeal, “Forward you send us, forward we go!” Future plans include ongoing development and articulation of upper elementary STEM experiences, beginning the professional development phase with lower elementary faculty and students, and successfully completing the AdvancED STEM certification process to be recognized as one of the few schools in the state to receive the formal certification.

THE STEM EXPERIENCE... IT’S ELEMENTARY!

The STEM Lab is located between the school’s two gyms. Students using the STEM Lab have access to a wide variety of STEM equipment such as littleBits STEAM sets (a powerful toolbox for invention based learning), Circuitscribe conductive ink pens (allows students to draw circuits on paper and explore basic circuit concepts), MaKey MaKeys (a small circuit board which turns physical objects into buttons for your computer by creating electrical circuits), Arduino boards (reads inputs and turn them into outputs), 3D Pens, 3D scanners, 3-3D printers, and tools necessary to create and fix things.

“As a teacher, I am committed to helping students discover their inner voice. I am thrilled to be able to offer students an opportunity to become creators, inventors, and problem solvers. With the help of the ULS Foundation, the ULS STEM Lab gives students a space to develop lifelong learning traits,” stated Aimee Welch-James, mathematics instructor.
This program challenges schools across the nation with 3D-printers to create and assemble prosthetic hands for children in need. The program began with three sixth grade students in an Introduction to STEM class in South Carolina. The Hand Challenge was developed to gain the support of schools with a 3D printer to be a part of work that can change the life of a child. Prosthetics can cost thousands of dollars which some families could never afford to buy, especially for a young child who may outgrow it quickly. The prosthetic hands made by 3D printers cost under $20 each to produce and are making a difference in children's lives across the U.S. U-High students are very humbled to be in a position to play a small role in this program and making an impact in a child's life.

“The students gained so much from working on this nationwide project and thanks to the continued support of the school's donors, who supplied the STEM based equipment, we look forward to more opportunities like this”, stated Aimee Welch-James, ULS mathematics instructor. While learning about the art of 3D printing, David Neubauer, mathematics and computer instructor, wanted to put student centered knowledge to practice by participating in the Hands Project. The database design class created two full sets of hands and will continue to make more in the future. “I really liked working with others to help children who are without hands. I like knowing that I did something for the world,” said ULS student Caleb Russell.

The following is an article written by Parker Loy, a junior, writing for the Cub Chronicle, (about the Prosthetic Kids Hands Challenge) middle and high school newsletter written by students, for students. 

Hands Project, by Parker Loy

About two weeks ago, we began learning about how we could use the school’s two 3-D printers to help people in need. With a program called “Prosthetic Kids Hand Challenge,” we learned we could help kids born without a hand or who are suffering from the loss of a hand due to disease by creating and giving them a new prosthetic hand. The great thing about this service project is that anyone with a 3-D printer can help a child in need.

When Coach Neubauer first came in with the 3-D printed models, we were very confused about how these blocks of plastic would eventually turn into a functioning hand, but through the videos we watched and with Coach Neubauer's help, we learned how to break up the brick into the individual parts of the hand. We learned how to put pins into each part to connect different parts of the fingers and then the fingers to the hand. We then had to pull elastic string through the 2-3 millimeter hole.

Each finger is strung through the hand in a way so that everytime the user's hand curls up, the fingers clench as well. We gave the hand to Coach Neubauer to finish the meticulous parts of running the fishing line and screwing the strings into place.

We built four hands, and we sent them to the South Carolina school which started this program to give the prosthetics to someone in need.

Middle School STEM Club

The Middle School STEM Club provides a non-competitive opportunity for students to participate in hands-on projects to explore the basic science principles associated with STEM. Sixth, seventh, and eighth grade students are members of the club, and they met on the first and third Tuesdays of each month. The club conducts activities and experiments enhancing the learning experience behind the science. Some activities and experiments conducted are binder clip catapults and hydraulic machines. The catapults were made when students attached wooden sticks to binder clips. Students learned how variables could affect an experiment to change the results of our conclusion.

“During the hydraulic machines we learned how objects can move when a force is exerted upon them. In our case, the water pushed and pulled the object to make the machine move. In both of the experiments we conducted, we learned many things. The S.T.E.M. club is amazing and I am so glad to be a part of it,” Regan Archie, 6th grader said.
The University Laboratory School celebrated “Summertime and the Living is Easy” at the 15th annual Grandparents’ and Grandfriends’ Day on May 17. More than 1,200 grandparents filled the gym to watch the K-5 performances that were directed by elementary music teacher Patti Hayes, accompanied by band teacher Annette West. The 5th grade classes performed band pieces between the K-4 vocal performances.

Superintendent Wade Smith and Elementary Principal Myra Broussard each made remarks regarding school accolades and updates and kicked off the program.

This year’s event committee consisted of India Byrd Rives ’97, decorations; Mischa Skyring Breard ’97, volunteers; and Beth Fields and Ann Underwood refreshments.

The program featured songs featuring summertime themes.

After the program, parent volunteers assisted the grandparents in finding their grandchildren’s classrooms, where they were invited to visit and participate in activities.

Special thanks to the following for making Grandparents’ Day so successful!

- Choir - Patti Hayes
- Band - Annette West
- Raising Cane’s
- Cafeteria - Joanna Krumholt
- LSU Facility Services
- A-Bear Productions
- Mickey Hebert

- Rickey Heroman’s Florist & Gifts
The 22nd annual Gerald Furr Memorial Golf Classic, presented by the Foust Group, was held on Tuesday, March 28, 2017, at the University Club Golf Course. The weather was perfect, and all enjoyed a great day of golf honoring late U-High Coach Gerald Furr. The 2017 Planning Committee consisted of Chair Michael Breard, Andy Blumberg ’98, John Everett ’87, Mischa Skyring Breard ’97, Brett Furr ’79, Cissie Furr, Joey Furr ’81, Chris Jackson, Philippe Pucheu, and Mary Jane Scala ’79.

The tournament sold out once again this year! All proceeds from the tournament benefited University High School athletics! Golfers enjoyed a box lunch provided by Bistro Byronz and beverages donated by Baton Rouge Coca Cola and Mockler Beverage. Players were welcomed by the planning committee and Furr family members. All players received portable ice chests embroidered with the Gerald Furr Logo.

During the tournament, players had the opportunity to participate in a rose contest sponsored by Rickey Heroman’s Florist and gifts, a putting contest sponsored by Van VanDuzee ’80, and a chance to win a Kayak sponsored by Mia Wax with Lockwood International. Players had a chance to win a 2017 Acura courtesy of Acura Infiniti of Baton Rouge. Phil’s Oyster Bar, Lava Cantina, Jeremy and Katherine Landry, WalkOn’s, and the Goodson, Toups, and Gilly families offered various foods and beverages throughout the course. Team photos were taken by athletic department assistant Megan Collins.

Winners for the day included:

Putting Contest - Joey Furr, a flat screen TV, compliments of Van VanDuzee ’80

Rose Contest - Mike Johnson, a dozen roses every month for one year, compliments of Rickey Heroman’s Florist and Gifts

Kayak Winner - Chad Cole

All winning teams received gift certificates to the University Club Pro Shop.
Mom and Box Top programs, Merchandise Sales Fundraiser and sold field trip t-shirts.

The organization’s membership drive boasted more than 700 members this year. As it does each year, the Cub Club created and distributed the family directory. They also compiled and monitored a volunteer database.

2016-17 CUB CLUB BOARD OF DIRECTORS

Front Row (left to right): Cathy Giering, Amy Groves Lowe ’88, Elizabeth Fitzgerald and Lisa Slyter. Back Row (left to right): Mila Sexton, Mark Goodson, Kelly Heroman Wood ’97, Chad Toups and Myra Broussard. Not pictured: Tracey Rutledge ’95 and Danielle Satawa

Please join us in showing our appreciation to Lisa Slyter, Tracy Rutledge ’95 and Chad Toups for their outstanding service and fulfilling their board member term.

Newly elected board members for 2017-18 will include Phillipe Pucheu, Shelly Caro and Stuart Gilly ’98.

“Our school is special for many reasons, but the compassion and service shown by our parents, faculty and staff this year certainly stand as one of the best. Time and time again, our Cub community rose to the challenge and offered help in countless ways to support each other. It is such a privilege to be a Cub,” said Amy Groves Lowe ’88.

The Cub Club is the LSU Lab School’s parent faculty organization. It has a Board of Directors and 16 sub-committees that report through the Cub Club Chair Amy Groves Lowe to the ULS Foundation Director of Development Mila Sexton. The mission of the Cub Club is to connect and involve parents, faculty and staff through the promotion of membership and volunteerism, providing resources and services to enhance the University Laboratory School community.

WE WANT “U” TO FRIEND US!

Along with the new ULS Foundation and Centennial websites, the ULS Foundation now has a presence on both Facebook and Twitter.

Friend the Foundation to receive regular updates regarding exciting sponsored yearly events, including the Gerald Furr Memorial Golf Tournament, Grandparents Day, the Alumni Homecoming celebration and much more!

AdvancementTeam@ULSFoundation

WE ARE EXCITED TO INTRODUCE TO YOU MEMO!

A fun and innovative online photo merchandise store that allows you to create amazing products while supporting ULS year round! We encourage our entire Cub community to participate, including parents, alumni and grandparents.

As we wrap up another school year, we reflect on those amazing and lasting memories we have created together. With MEMO you can preserve those memories by uploading photos from your life’s most precious moments to create beautiful photo products that are printed with the highest quality materials and delivered right to your door. You pick the design you love, create the products online using your photos, and place your order. Photo books, calendars, posters, greeting cards, invitations, graduation products, journals, stationary, and more are can be created in minutes and delivered to you within days. MEMO Gift Cards make great gifts for any occasion. You can order a virtual gift card and schedule it to be emailed to your loved one on their special day!

With 50 percent of the proceeds from each order directed to support ULS and MEMO being a local company launched out of the LSU Innovation Park, please consider shopping at: https://shop.makeamemo.com/?beneficiary=1 for all of your photo merchandise needs.
The elementary playground area of ULS was transformed into a wine and cheese reception honoring our incoming kindergarten families. More than 65 percent of the incoming parents joined members of the ULS enrichment faculty. As parents arrived, they were greeted and guided to participate in interactive booths displaying information and take home manipulatives for the future students. Featured programs included visual arts, information resources (library), science, technology, engineering, and mathematics (STEM) experiences, foreign language, remediation instruction and curriculum, performing arts, technology, physical education and counseling. The crowd enjoyed participating in raffles for a number of door prizes while meeting other kindergarten parents. Special thank you and recognition to Emelie Kantrow of Bistro Byrzon and Debbie and Rickey Heroman of Rickey Heroman Florist and Gifts for making the event possible. ULS faculty and staff look forward to greeting the Class of 2030 this fall!

“The Elementary school is grateful to the ULS Foundation for hosting this “first-of-its-kind” Lab School event. The reception provided an occasion to introduce and highlight our amazingly talented instructors who have not traditionally had the opportunity to share with parents the experiences their children will enjoy in elementary enrichment classes. While budget constraints require many schools to drastically cut classes, including the arts and physical education, ULS holds firm to the belief that enrichment experiences provide opportunities for children to develop teamwork and critical thinking skills and to explore and refine their own interests and creative abilities and are critical to the development of the whole child. The event was a huge success, and parent and faculty feedback was amazingly positive.”

- Myra Broussard

“As four-year veteran parents of the Lab School, we thoroughly enjoyed the welcome reception for parents of kindergartners entering in August! We even learned new things about programs that we thought we knew, such as the enrichment programs and foreign language curriculum. ULS is providing an outstanding experience for our children.”

-Annette Droddy

“The kindergarten welcome reception was a tremendous asset to us as new parents. It allowed us to visit not only with the future educators of our children but also the parents of the incoming kindergartners. After attending this fun and informative get together, my wife and I are excited and looking forward to all that ULS has to offer our child.”

-Joe Carvalhido
s one of our seven impact areas of funding through the annual appeal, it is vital that the ULS Foundation continues to provide opportunities that cultivate faculty innovation supporting faculty aspirations. “Total effort in every endeavor” is a motto held close by ULS faculty as well as students. With 18 and counting, ULS boasts among the highest percentage statewide of faculty who hold the gold standard of national board certification from the National Board for Professional Teaching Standards.

“Schools with many National Board Certified Teachers have strong professional communities, focused on leadership, learning, and collaboration. The culture of the school benefits from the common language of the National Board standards, which centers discussions on professional practice and student learning. Teachers know the most important part of their job is having a daily impact on students. The standards encompass skills that are effective in all teaching environments, including the most challenging” National Board for Professional Teaching Standards.

C onsider the type of reading most do each day at work, in continuing education settings, and in everyday lives. In each instance, reading, comprehending, and applying what is learned from informational or nonfiction text is the means by which one learns to understand and to succeed in the world around us. The same holds true for students as they progress through school and engage in different content areas. To be successful in each subject, students must be able to read, comprehend, and apply information from a variety of nonfiction resources. Math, science, social studies, language, visual and performing arts, technology, research, and kinesthetic classes all require students to read, learn from, and respond to informational text sources.

“Realizing the direct relationship between personal success and regular access to and successful engagement using information text, we inventoried our elementary literacy library to determine if the number of current nonfiction resources on hand were adequate to address the need for explicit nonfiction reading instruction. It was immediately apparent that our number one priority must be to acquire nonfiction pieces to support grade level content area instruction and provide increased student access to and engagement with informational text. To better prepare students for the instructional road ahead of them, teachers use these resources more frequently in instructional activities and teach reading and comprehension strategies specific to nonfiction text,” said Myra Broussard, ULS elementary principal.

The literacy plan was developed and ultimately the literacy library was created by a team of faculty, administrators, specialists and literacy coaches and was developed giving consideration that current state standards require students to encounter more non-fiction texts than in the past. Current standards require a 50:50 balance of student exposure and engagement with fiction/nonfiction text in the lower grades and approximately a 70:30 balance in the upper grades. The model of literacy instruction developed in ULS’s Literacy Plan demonstrates a high level of dedication to the goal of all students reading at or above grade level expectations.

Recent funding provided by ULS Foundation allowed two K-5 literacy libraries to be updated. The funding allowed the elementary school to update and supplement fiction and nonfiction titles which either correlated to particular units of instruction or were written at specific reading levels. K-5 faculty also provided input regarding additional titles and topic needs, which provided for the greatest impact in instruction and student engagement.

The Elementary Literacy Program is evaluated for effectiveness and impact through direct monitoring of the use of the materials and analysis of ongoing student performance data, which documents accelerated progress in each student’s ability to read and comprehend increasingly difficult text levels and to write at proficient levels. The ultimate goal of the program is to provide materials for use that impact the academic growth of our student body.

“The funding received from donors to the 2017 Annual Appeal allowed us to increase and strengthen our book collection and also allowed us to reorganize the library so teachers could find titles and reading level texts easily. Math-themed books were also included in the purchase. Teachers and students appreciate and are excited to use the new, organized collection,” said Ellen B. Daugherty, K2 ELA and math curriculum coach.
ear Cub Community,

The University Laboratory School has a distinct culture and mission that is intimately linked to Louisiana State University. As great as a laboratory education is today, it has the potential to become even stronger and influential as long as we continue to build on the existing positive relationships within our Cub community, while preserving the schools 100-year legacy.

Working with the ULS Foundation Board of Directors, making possible the vision of our faculty and administrators through the continued support of our parents, grandparents, alumni and friends, is exhilarating. Your impact has been enormous and played a large part in positioning ULS for what may be the most important chapter in its history: transforming the vision for this great school’s future into reality.

Day in and day out, it is my privilege to engage with hundreds of volunteers and more than a thousand donors annually, working together to ensure that ULS remains one of the very best in the country. The school’s success is based largely on this partnership along with outstanding faculty and staff, caring families that support their children’s academic and extracurricular dreams and alumni who celebrate and support their alma maters’ legacy.

Your investments in ULS ensure that our students and faculty thrive in an environment that is both challenging and innovative. As we end another school year, we reflect on all that the Cub community has accomplished this year:

- Creation of the Arts Reserve Fund
- Enhancement of the K-5th Grade Literacy Library
- National Board Certification fees and faculty enrichment conferences
- Meeting STEM initiatives, including the acquisition of three 3-D printers, a web cam, environmental drone monitoring and additional equipment and furniture for the first STEM Lab
- Acquiring middle and high school robotics equipment, hosting robotics workshops and securing competition fees
- Advancements in the K-12th grade technology initiatives, such as securing 45 iPads and two carts, 30 Apple MacBook Air laptops with a cart, including 20% of all funds raised dedicated to technology
- New website development for all areas of the school
- Hosting more than 10 events engaging students, parents, alumni and grandparents, such as alumni reunions, Grandparents’ Day, Alumni Homecoming Tailgate, Cubs Celebration, Senior Walkout and Crawfish Boil, Gerald Furr Memorial Golf Classic and many more.

These extraordinary programs yield amazing experiences for our students, and your gifts make it possible. We hope you enjoy this issue of Cub Roar and see for yourself the continued growth of ULS. It is with great anticipation that we look forward to the coming year.

Enjoy your summer!

MESSAGE FROM THE DIRECTOR OF DEVELOPMENT
Mila Sexton, CFRE

The May board meeting provided an opportunity to thank and recognize board members whose terms have been fulfilled. They included: Laurie Lipsey Aronson ’85, John Everett ’87, Cate Heroman, Jan Purdin Groves, Jennifer Hataway, Emilie Alton, Danielle Satawa, Candace Kouns, Peter Kopfinger and Mila Sexton. Back Row (left to right): Andy Blumberg ’98, Wade Smith, Robert Ward, Chris Spencer, Robert Pettit, Frank Rasiciano, Edmund Giering, Charles McKenzie ’82, Mark Goodson and Michael Beard. Not Pictured: John Everett ’87, Chris Hashew, Kelli Jones, Ted Jones ’89 and Ann Cunningham McDuﬀ ’79

The 2017-18 Executive Board was presented and includes: Charles McKenzie ’82, Chair; Edmund Giering, Vice Chair; Peter Kopfinger, Treasurer, Candace Kouns, Secretary and Chris Spencer, Immediate Past Chair.

New board members for 2017-18 will include: Ben Broussard, Stuart Gilly ’98, Annette Droddy, Andi Kirkpatrick and Tracey Rutledge ’95.
University Laboratory School experience is shaped by the full participation of all of us. On behalf of the board of directors, thank you for your ongoing commitment to our mission and to our students.

Throughout the following donor listing you will discover the tremendous impact of your participation through our ‘7 Areas of Impact’. Each and every gift makes an impact and ensures that our students and faculty thrive in an environment that is both challenging and innovative. Philanthropic support enriches everyone and everything, every single day, at the Lab School and it perpetuates our 100-year legacy of excellence.

The ULS Foundation exists to support the school in its efforts to stimulate a passion for learning, create a curiosity for knowledge and provide resources necessary for student fulfillment.

Last but not least, the ULS Foundation has been extremely fortunate in the caliber of volunteer leaders who have given their time, talent, and resources. A project of this size and importance requires extraordinary effort and exceptional leadership.

Again, thank you!

**FINE ARTS**

Children explore their interests and creative abilities through ongoing exposure to the arts, a core element of the ULS curriculum. Arts education is critical to the development of the whole child and provides opportunities for children to develop skills in written and oral expression, teamwork and critical thinking. Our students engage with and develop an understanding of both visual and performing arts through painting, sculpture and mixed-media projects; writing and presenting poetry; and vocal and instrumental music.

STEM

Science, technology, engineering and mathematics education is vital to our students’ futures and those of the communities they will one day serve. STEM experiences provide students with opportunities to learn more about the technological age in which they live, explore interests that may lead to related careers, and be exposed to the engineering design process, which can be used in any problem-solving situation. Twenty percent of all unrestricted ULS Foundation funds is dedicated to technology and developing unique K-12 STEM experiences.

25
LIBERAL ARTS

Liberal arts allow students to gain an understanding of and appreciation for English, history, and foreign language. UL’s English Language Arts program focuses on “learning to read and write” in the early elementary years, then shifts to “reading and writing to learn.” Success in the Advanced Placement, dual enrollment programs and International Baccalaureate requires students to be effective communicators who can justify their points of view, consider other perspectives and, ultimately, formulate and deliver rational decisions or answers to questions through writing and speech.

Throughout the elementary experience, our intentional transdisciplinary approach to integrating all core content, including ELA and social studies, in meaningful ways aids students in developing comprehension, problem-solving, presentation and rhetorical skills. This critical skill development provides the foundation for students to successfully engage in the rigorous, challenging curriculum ahead of them in secondary school.

Our students learn the fundamentals of French and Spanish simultaneously beginning in kindergarten and continuing throughout elementary school. Then, middle school students select the language they will continue to study throughout their secondary experience.
STUDENT CURRICULUM-BASED TRAVEL ASSISTANCE

Curriculum-based travel assistance gives students the opportunity to learn outside of the classroom and broaden their worldview by putting travel in reach of students whose families may never be able to afford these trips. Students who meet certain criteria receive assistance for such programs as the annual seventh grade Washington, D.C., trip and the Panama exchange program. Through travel, our students learn and use new languages, explore and understand cultural differences, consider cultural similarities, better understand cause and effect of historical events, learn more about the Earth's history and gain independence.

The ULS Speaker Series recruits nationally recognized speakers to discuss important topics and new ideas that interest and impact students, faculty and staff. Each speaker’s real-world experiences and observations have a connection to lessons learned in the classroom, strengthening the depth of the ULS educational experience. The series provides inspiration for students to continue working hard, improve problem-solving skills and consider different perspectives.

SPEAKER SERIES

2017 ANNUAL APPEAL

27
FACULTY DEVELOPMENT

Our outstanding students are the best measure of the leadership and impact of our faculty members, who set the pace in developing, implementing and demonstrating exemplary programs and instructional practices across the K-12 spectrum. Supporting our faculty's aspirations, including cultivating faculty innovation, is a vital responsibility that the ULS Foundation fulfills by funding National Board Certification, extensive training in programs such as Advanced Placement, dual enrollment programs and International Baccalaureate Diploma Training; advanced educational seminars; professional development opportunities; and advanced degree opportunities.

PHYSICAL ASSET MANAGEMENT

Our school takes a systematic approach to organizing and overseeing equipment and plant facilities from concept to disposal. Ongoing maintenance and replacement expenses include budgeting for technology, physical facilities, outdoor instructional areas, landscaping needs and the school's bus fleet for school and extracurricular travel. These assets ensure that the vision of ULS, the ULS Foundation and its donors becomes reality, creating a productive, safe, engaging and beautiful environment for the Cub community to learn, play and grow.

Memorials and Tributes

Memorial and tribute gifts offer a meaningful way to remember family and friends while making a difference at the LSU Laboratory School. Make a lasting tribute to your family, friends, faculty, students and alumni. Memorial and tribute gifts also provide a special way to celebrate occasions like birthdays and anniversaries. The following gifts were received during January 1, 2015 to May 1, 2017.

Our Apologies... Is Your Name Missing?
Every effort has been made to publish the most accurate donor information possible. Although we pride ourselves on our accuracy and reliability, errors or omissions sometimes occur. In the event of an error or omission, contact the Development Office at cleonard@lsu.edu or (225) 578-3148 and corrections will be made immediately. Thank you.

The Cub Roar
Become a member of the Endeavor Club! The Endeavor Club provides special recognition for donors who give 5 percent more than the previous year (up to $5,000) and is named for the school’s motto “Total Effort in Every Endeavor.” Families donating $5,000 or more are automatically members. Expenses escalate every year. The 5 percent gift increase helps cover these rising costs and enables the enrichment of even more programs.

University Laboratory School Foundation hosted a reception Sunday, February 26 for alumni who now live in the Washington, D.C. area.

UHS Secondary Principal Frank Rusciano and ULS Foundation Development Associate Megan Bourgeois welcomed the more than 20 alumni and friends who attended. All enjoyed visiting and connecting with fellow Cubs.

Special thanks to alumnus Michael Babin ’86, who shared the unique space of his D.C. area brewery, The Bluejacket, for the event. The Bluejacket and its home restaurant and bar, The Arsenal, are housed in a building originally constructed in 1919 as part of the Navy Yard’s ship and munitions manufacturing complex and today are among the more popular eateries and social gathering spots in southeast D.C.

At the end of the evening, alumni were given commemorative t-shirts as a parting gift in appreciation for their attendance. Megan Bourgeois stated, “As participation increases in the D.C. area, we hope to continue this event for years to come and to expand to other areas of the United States where current large U-High alumni bases exist. The connections made at this event are what we hope to see for our Cubs nationwide.”

U-HIGH ALUMNI HOMECOMING TAILGATE CELEBRATION

CUBS vs. Madison Prep
Friday, October 27, 2017
5:30 – 7:00 p.m.
U-High Cub Complex

FOOD AND FUN FOR ALL ALUMNI & FAMILIES!

All UHS Alumni and family members are invited for a meal before the game, free entry into the game and entertainment for the kids!
UHS alum Michael Babin’ 86 helped the Foundation host the 2nd Annual Cubs Take D.C. Alumni Reunion held this past February. Babin is co-owner of the Neighborhood Restaurant Group which owns and manages over 19 unique dining experiences in and around the metropolitan D.C. area.

During his time at U-High, Babin was involved in Student Council, Boys’ State, Key Club, French Club, Spanish Club, Football, Basketball, Track and Field and was also a National Merit Finalist. Babin obtained his bachelor’s degree from Yale University, his commission as an officer in the U.S. Army Signal Corps, and a J.D. from Georgetown University Law Center.

Before entering the restaurant business, Michael worked in the political arena as a legislative aide handling budget and finance issues for U.S. Senator J. Bennett Johnston and as a lobbyist and business consultant for Charlie McBride Associates. In 1997, Babin opened the Evening Star Cafe in Alexandria, Virginia, because he wanted to help build and strengthen the neighborhoods around his concepts. One of his latest projects, The Bluejacket Brewery and Restaurant, is an actual beer brewery and is built on the former site of the Washington, D.C., Navy Shipbuilding Yards.

The Bluejacket has played a big role in revitalizing that area of DC. Babin has continued to expand and several of his restaurants have been featured in many publications and have received rave reviews.

Although Babin makes his home in the D.C. area, he does visit Louisiana often. Like so many others who have passed through the halls of U-High, Michael believes that the school helped make him who he is today and prepared him for his professional career.

40th Reunion

The UHS Class of 1977 gathered for their 40th reunion the weekend of April 21-22. Thirty-one classmates came from all over the country - Colorado, Washington, Missouri, Arkansas, Georgia, Texas, and Florida to enjoy the fun weekend. A cocktail party was held Friday night at Danny McGlynn’s house where a slideshow was shown, a class picture was taken, and a reunion booklet was distributed. Saturday morning, UHS alums enjoyed a tour of the school, and then the ladies had a mother-daughter brunch at the home of Cathy Gravois’ mom. Saturday evening, a crawfish boil was held at Mark Sigler’s home in St. Francisville.

11th Reunion

ULS Foundation Alumni Relations welcomed more than 50 members of the Class of 2006 back to U-High on December 23 for a tour of the school’s campus. Alumni in attendance were surprised and pleased with the campus improvements made since 2006.
Chip Bankston ’95 has been elected to the Board of Directors of the Louisiana Orthopedic Association (LOA). The LOA is a statewide, professional membership organization comprised of orthopedic surgeons, orthopedic residents, and ancillary healthcare providers.

Camille Beste ’12 was recently named one of LSU’s Tiger Twelve for the Class of 2017. Camille is a psychology major, has served as executive president of the LSU Panhellenic Council, and was a vice president of operations for Kappa Delta Sorority. She was the lead facilitator for the EMPOWER Greek retreat and represented LSU and the Southeastern Panhellenic Conference in Atlanta. Camille was also involved in the recolonization of Alpha Delta Pi at LSU. During her four years at LSU, she worked as a student assistant in the Office of Orientation and the Office of Family Programs.

Brooke Brady ’12 graduated from the University of Arizona in May 2016 and is now in Los Angeles pursuing a career in dance. Brooke is a member of the Los Angeles Laker Girls and is featured in music videos for artists such as Akon, Joey Montana, Broadside, and Secrets. She has been a principal in commercials for Holiday Inn Express, Ford EcoSport, and Sparkling Ice and has been a part of a pilot show starring actor Rob Riggle. Brooke is also working as a magician’s assistant under the training of Misty Lee and is a certified Piloxing Fitness Instructor.

Brett Furr ’79, an attorney with Taylor Porter, was named to the 2017 edition of Louisiana Super Lawyers in the area of banking.

Jaime Glas ’06, a 2012 petroleum engineering graduate of LSU, is the founder and CEO of Hot Stuff Safety Wear, a female centric clothing company producing flame retardant jumpsuits for female engineers.

Garrett Kemp ’13 purchased the iconic Circa 1857 in mid-city Baton Rouge in June 2016. The store is now known as The Market @ Circa 1857.

Shelby McKenzie ’57 was one of six LSU Alumni named to the LSU Hall of Distinction. The LSU Alumni Association annually recognizes alumni who have distinguished themselves and the university through their careers, their personal and civic accomplishments, their volunteer activities and their loyalty to their alma mater.

Madeline Blackwood ’12 is engaged to Alex Beem. Madeline is a 2016 graduate of LSU and is currently working with the university in the Registrar’s office. Alex is a petroleum engineer with WSP.

Katherine Mathews Landry ’99 and husband Jeremy announce the birth of their third child, Emme Follett Landry. Emme was born on November 16, 2016, and was welcomed home by big sister Mazie and big brother Mack.

We are saddened to announce the passing of Margery “Tyke” Johnson Olinde from the U-High Class of 1945. She passed away on January 4, 2017. Mrs. Olinde was a 2007 inductee into the University Laboratory School Hall of Distinction. She was lifelong volunteer for the Baton Rouge community, most notably as an original founder of the Greater Baton Rouge Food Bank. She volunteered for the Baton Rouge Speech and Hearing Foundation and was honored with their Volunteer Activist Award in 2002. She was member of the LSU Foundation and nominated for the Volunteer Baton Rouge “Golden Rule” Award. Mrs. Olinde also received the WAFB-TV and Volunteers in Public Schools “Giving Something Back” award. Mrs. Olinde will be missed by the Cub family.

Do You Have News to Share?

We are anxious to hear from and about our wonderful alumni! Please share your latest news and achievements with The Cub Roar, so we can let your fellow classmates and friends know about the good things you’ve done since leaving U-High! Please take a moment to e-mail your Alumni Cub Tracks news to Megan Bourgeois at mbourg@lsu.edu.
For many years the senior class has gathered on a spring afternoon just prior to graduation to have a picnic or crawfish boil to celebrate the end of their high school careers. In 2008, Dr. Smith had the idea to take it a step further. He wanted to send the graduating seniors off in a grander way. He wanted to surprise the seniors with a send-off from the entire school. The idea was to line the halls of the school starting at the auditorium all the way out to the student parking lot with the entire student body cheering and congratulating the seniors as they took their last walk through the halls of U-High. After a short assembly in the auditorium, the Class of 2008 was shocked when they saw the halls overflowing with students and teachers cheering them on. Nobody imagined that idea would turn into one of the most cherished traditions in U-High history. This year marks the 10th time the walk-out has occurred, and every year it gets better and better. The hope was to send the students out in a way that they would remember forever and that has held true! 

Forward you send us... Forward we go!
