

Dear Middle School Parents,

The University Laboratory School's Middle/High School Library serves students from sixth through twelfth grades. Our collection of resources is widely varied to meet the interests and needs of this significant age range. Accordingly, our fiction books have been separated into a middle school collection and a high school collection. When selecting books for our collections, librarians rely on reviews as well as first-hand knowledge of the literature. The books that are selected are of high quality and interest to our student population.

You are the best judge of your child's sophistication level. If you would like for your middle school child to be able to check out books from the high school shelves as well as the middle school collection, please sign below. These forms will be kept on file in the library.

Thank you for your active participation in your child's reading decisions.

Sincerely,

Charity Cantey
Middle/High School Librarian

My child, _____, may check out books from the high school section of the school library.
